ADITYA ADARSH

Indore, M.P. | +91 8210476320 | aditya.adarsh301@gmail.com | linkedin.com/in/aditya-adarsh-5669872b6 | github.com/Aditya26279

PROFESSIONAL SUMMARY

Computer Science Engineering student with hands-on experience building full-stack and machine-learning-driven applications, including a real-time phishing detection system integrating ML models with REST APIs. Skilled across Python, JavaScript, and modern web frameworks (React, Node.js, Flask/FastAPI), with working knowledge of relational and NoSQL databases, cloud basics (AWS/Azure), and Agile development practices. Cisco-certified in cybersecurity fundamentals, with a strong interest in applying ML and secure software engineering practices to solve real-world problems. Seeking to contribute as a software engineer or ML engineer on teams building scalable, production-grade systems.

WORK EXPERIENCE

Sponsorship Coordinator | GDG On Campus SUI *2024*

- Managed vendor and sponsor relationships for club events, serving as the primary point of contact from outreach through delivery.
- Coordinated with sponsors and internal teams to align event needs with sponsorship commitments, helping ensure events were adequately funded and resourced.

EDUCATION

SAGE University, Indore, M.P. *2024 – Present*
Bachelor of Technology, Computer Science Engineering — CGPA: 7.16

SIIT, Patna, Bihar *2021 – 2024*
Diploma, Computer Science Engineering — CGPA: 8.28

Gyanodaya Gurukul, Patna, Bihar *2014 – 2021*
Matriculation — Percentage: 61%

Relevant Coursework: Data Structures & Algorithms, Database Management Systems, Operating Systems, Computer Networks, Web Development

PROJECTS

AI-Based Phishing Detection System

- Built a machine learning system to classify phishing and legitimate websites using URL and content features, designed for internet users, organizations, and security teams to improve cyber threat detection.
- Architected a modular pipeline integrating the ML model with REST APIs for real-time prediction, improving scalability and simplifying future model updates.
- Delivered a real-time classification system supporting scalable deployment, efficient API integration, and continued model enhancement.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, SQL
Frameworks & Tools: React, Node.js, Flask/FastAPI, Git, Docker, REST APIs
Databases & Cloud: PostgreSQL, MongoDB, AWS / Azure (basics), Firebase
Other: Agile/Scrum, CI/CD basics, API integrations (Resend, Claude AI)

CERTIFICATIONS

- Introduction to Cyber Security — Cisco Networking Academy (2025)
